

COVERT M-PACT® 3

TACTICAL HAND PROTECTION

The mighty M-Pact® 3 provides military and law enforcement professionals with full-coverage hand protection in the field. A dense one-piece thermoplastic rubber (TPR) knuckle guard is anatomically designed to absorb forceful impact to the back of the hand and improve overall mobility during hard-charging operations. The outside of the thumbs and fingers are protected by 3mm EVA accordion padding, while the low-profile TPR top closure creates a secure fit to the wrist. The M-Pact 3 features internal fingertip reinforcement for extreme abrasion resistance and embossed patterning for added grip where you need it most. The two-piece palm construction reinforces high-wear areas and reduces material bunching to preserve dexterity when handling firearms.

IMPACT PROTECTION

Molded thermoplastic rubber (TPR) knuckle guard provides impact resistance.

REINFORCED FINGERTIPS

Internal fingertip reinforcement provides extreme abrasion resistance.
